

From the June 2007 session, as part of CIE’s continual commitment to maintaining best practice in assessment, CIE has begun to use different variants of some question papers for our most popular assessments with extremely large and widespread candidature, The question papers are closely related and the relationships between them have been thoroughly established using our assessment expertise. All versions of the paper give assessment of equal standard.

The content assessed by the examination papers and the type of questions are unchanged.

This change means that for this component there are now two variant Question Papers, Mark Schemes and Principal Examiner’s Reports where previously there was only one. For any individual country, it is intended that only one variant is used. This document contains both variants which will give all Centres access to even more past examination material than is usually the case.

The diagram shows the relationship between the Question Papers, Mark Schemes and Principal Examiner’s Reports.

<b>Question Paper</b>	<b>Mark Scheme</b>	<b>Principal Examiner’s Report</b>
Introduction	Introduction	Introduction
First variant Question Paper	First variant Mark Scheme	First variant Principal Examiner’s Report
Second variant Question Paper	Second variant Mark Scheme	Second variant Principal Examiner’s Report

**Who can I contact for further information on these changes?**

Please direct any questions about this to CIE’s Customer Services team at: [international@cie.org.uk](mailto:international@cie.org.uk)

**MARK SCHEME for the May/June 2007 question paper**

**0580/0581 MATHEMATICS**

**0580/01 and 0581/01** Paper 1 (Core), maximum raw mark 56

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began.

All Examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

- CIE will not enter into discussions or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the May/June 2007 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

	IGCSE – May/June 2007	0580/0581	01

1		-2	B1	
2		$0.58 < \frac{3}{5} < 62(\%)$	B1	Accept answer in alternative form provided equivalence is clear.
3		7 (h) 55 (min)	B1	
4		24	B1	
5		Negative	B1	
6	(a)	Jan	B1	Not just -10.2 but ignore if included.
	(b)	26(.0)	B1	Allow -26
7		145 + 180 or 360 – their <b>acute</b> angle at L  325	M1  A1	Must be clearly indicated in working or diagram.
<b>[9]</b>				
8	(a)	$\begin{pmatrix} -1 \\ 3 \end{pmatrix}$	B1	SC1 for <b>both</b> answers with components of (a) and coordinates of (b) reversed.
	(b)	(-2, -1)	B1	i.e. $\begin{pmatrix} 3 \\ -1 \end{pmatrix}$ for (a) and (-1, -2) for (b)
9		$2x^2 + 3xy$ or $x(2x + 3y)$	B2	B1 for $3x^2 - x^2 + 3xy$ or $x(3x - x + 3y)$ seen. SC1 for answer $2x^2 - 3xy$ or $2x^2$ seen in final answer of 2 terms.
10		75°	B2	B1 for 25° or 50° seen on diagram or clear in working that angle <i>BCD</i> is 25° or angle <i>DCE</i> is 50°. Minimum - arc seen in diagram.
11	(a)	Equilateral	B1	Not equal
	(b)	(Triangular) prism	B1	If qualified must be triangular (or triangle).
<b>[8]</b>

	IGCSE – May/June 2007	0580/0581	01

17	(a)	$5.1 \times 10^8$	B2	B1 for $5.1 \times 10^n$ where $n$ is an integer greater than 1 Calculator form; penalise 1 mark each form. May revert to given value. Answer does not need to be in standard form. (e.g. 149940000) If M0, SC1 for $3.6 \times 10^8$
	(b)	$29.4 \times$ their (a)/ 100 art $1.5 \times 10^8$ oe	M1 A1cao	
18	(a)	$(AB^2 = ) 1200^2 + 900^2$ 1500	M1 A1	Indicated by 2250000 seen Allow art 1500 if sin or cos used and (b) done before (a). For sin or cos method allow their (a) for M1 only.
	(b)	tan (=) $900/1200$ oe art 36.9	M1 A1cao	
19	(a)	263	B1	B1 without arcs, accuracy 2mm SC1 for 'correct' mirror image with arcs.
	(b)	Correct construction with arcs	B2	
	(c)	109.5	B1	
<b>[12]</b>				
20	(a) (i)	50	B1	Indicated by answer of 43 to 45 or calculation shown. (Total = 659)  Must be at least 7 values  Two very low values etc. Must not refer to extreme high values.
	(a) (ii)	Sum divided by 15	M1	
	(a) (iii)	43.9(3.....) Attempt to order estimates 47	A1 M1 A1	
	(b)	(Low) Extreme values oe	B1	
21	(a)	30 + 60 (seconds) 90 (seconds)	M1 A1	SC1 for 30 or 60 seen.  Any clear indication of section Allow 1270 to 1280 Also indicated by 310 or (400 – their (a)).  ft correct to 3 significant figures.
	(b)	D to E	B1	
	(c) (i)	1280(m)	B1	
	(c) (ii)	400 used	B1	
		their (c)(i) divided by 400 (only) 3.2	M1	
			A1ft
